TREATMENT AT NATURAL SMILES

TRANSFORMING YOUR SMILE

THREE PATHWAYS

YOUR THREE OPTIONS

There is no single best way to transform a smile — there is the right way for you. We offer three carefully chosen cosmetic pathways.

COMPOSITE BONDING & WHITENING

I.

SAME-DAY • MINIMALLY INVASIVE

Tooth-coloured resin sculpted directly onto your teeth by hand — correcting chips, gaps and discolouration. Often a single visit. No drills. No injections in most cases.

3D PRINTED VENEERS

II.

PRECISION DIGITAL • MIDDLE
GROUND

Bespoke veneers designed and 3D printed from advanced ceramic-resin hybrid materials. The aesthetic refinement of porcelain at a more accessible price — with minimal tooth preparation.

PORCELAIN VENEERS & WHITENING

III.

PERMANENT • FLAWLESS FINISH

Ultra-thin porcelain shells custom-crafted by a master ceramist and bonded to your teeth — correcting shape, shade and alignment in a single, lifelong transformation.

DESIGN

THREE TREATMENTS. ONE TRUSTED TEAM.

Our role is not to recommend one treatment for everyone — it is to design the right one for you.

I. COMPOSITE BONDING & WHITENING

Hand-sculpted resin · same-day result

Tooth-coloured resin applied directly and sculpted by hand, tooth by tooth, then polished to a natural finish. Minimally invasive, no drilling and no injections in most cases — often complete in a single visit.

BEST FOR	Chips, gaps, discolouration · same-day result
TIMEFRAME	1–2 appointments · same day possible
LIFESPAN	5–7 years with maintenance

II. 3D PRINTED VENEERS

Digitally designed · printed in advanced ceramic-resin hybrid

Designed in our digital smile-design studio and 3D printed from a high-performance ceramic-resin hybrid material. The precision and natural translucency of porcelain at a more accessible price — with minimal tooth preparation required.

BEST FOR	Refined smile redesign · balanced cost
TIMEFRAME	2–3 weeks · 2 appointments
LIFESPAN	7–10 years with good care

III. PORCELAIN VENEERS & WHITENING

Ultra-thin shells · the lifelong transformation

Bespoke porcelain veneers, designed digitally and crafted individually by a master ceramist. Bonded over your existing teeth to correct shape, shade and alignment — the gold-standard cosmetic transformation.

BEST FOR	Full smile redesign · permanent result
TIMEFRAME	3–5 weeks · 2–3 appointments
LIFESPAN	15+ years with good care

YOUR COSMETIC JOURNEY

01 CONSULTATION & SMILE DESIGN

A relaxed conversation about what matters most to you. Clinical photography, intraoral scan, and a digital preview of your proposed result before any commitment is made.

02 TREATMENT PLAN & COSTINGS

Your bespoke plan presented in full — every stage, every appointment, every cost confirmed in writing. We answer every question. Nothing proceeds until you are completely ready.

03 WHITENING FIRST

For most cosmetic treatments, whitening begins the journey — either in-chair or with custom-fitted take-home trays over 2–3 weeks. Your final shade is then matched precisely.

04 YOUR TRANSFORMATION

Veneers placed, composite sculpted, or 3D printed veneers bonded — treatment delivered with the calm, unhurried care our patients consistently describe as the reason they recommend us.

CHOOSING YOUR TREATMENT

COMPARING YOUR OPTIONS

	COMPOSITE BONDING	3D PRINTED VENEERS	PORCELAIN VENEERS
MATERIAL	Hand-sculpted resin	Printed ceramic-resin hybrid	Master-crafted porcelain
TOOTH PREPARATION	None · additive only	Minimal where possible	Minimal where possible

WHITENING

WHAT OUR PATIENTS SAY

★ ★ ★ ★ ★

“What I love most is that no-one knows. The whitening, the shape, the result — it just looks like my smile, but better than ever. Genuinely life-changing.”

MARY WILSON · PATIENT

★ ★ ★ ★ ★

“From the very first consultation, I knew I was in the right hands. I can eat, smile and laugh without a second thought.”

JAMES T. · PATIENT

★ ★ ★ ★ ★

“The level of care throughout was exceptional. My confidence has been completely transformed. I cannot recommend Natural Smiles highly enough.”

HELEN R. · PATIENT
