

TREATMENT AT NATURAL SMILES

ALL-ON-4

FULL ARCH IMPLANTS

UNDERSTANDING YOUR TREATMENT

I.

WHAT IS THIS
TREATMENT?

All-on-4 is a clinically proven full-arch restoration that replaces an entire row of teeth using just four strategically placed implants — maximising bone contact with your existing bone, and eliminating the need for complex grafting in most cases.

II.

WHY IS IT BENEFICIAL?

Every month spent with failing or missing teeth means another month of avoided meals, guarded smiles, and compromised confidence. All-on-4 changes that — permanently, and in as little as one day. Your new arch is anchored securely into your own bone, so you eat what you want, speak clearly, and smile without a second thought.

III.

WHAT YOU WALK OUT
WITH

You leave your surgery day with a full, fixed arch of natural-looking teeth — not a gap, not a temporary plate, a real smile. Within a few months, your final bespoke zirconia arch is placed, completing a transformation our patients consistently describe as life-changing.

YOUR TREATMENT JOURNEY

A SMILE, RESTORED

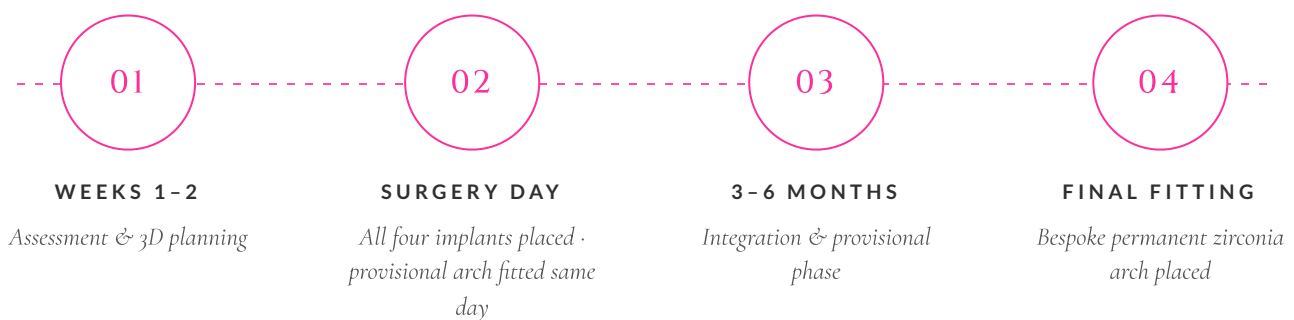

“For the first time in years, you will wake up and not think about your teeth. No discomfort. No embarrassment. No limits. Just your smile — permanent, beautiful, and entirely your own.”

Your All-on-4 journey begins with a comprehensive assessment and CBCT 3D scan — the same imaging technology used in specialist surgical centres. This allows our team to map your bone in three dimensions and design your arch with extraordinary precision. In most cases, All-on-4 eliminates the need for bone grafting entirely — meaning even patients who have been told they lacked sufficient bone are often suitable candidates.

On surgery day, any remaining failing teeth are gently removed, and all four implants are placed in a single, carefully managed procedure — usually under conscious sedation, so you remain comfortable and relaxed throughout. A provisional fixed arch is secured to your implants on the same day. You leave with a full smile, and you are eating soft foods within hours.

Over the following 3–6 months, your implants quietly bond with your own bone — a process called osseointegration. Your provisional arch stays fixed and fully functional throughout, so your life continues without interruption. Your final bespoke arch, crafted from premium zirconia to match your natural colouring, is then placed — the moment patients most often describe as the best day of their year.

TYPICAL TIMESCALES

CONSIDERED CARE, IN EVERY DETAIL

◆ SAME-DAY SMILE

Most patients walk out of surgery with a fully fixed provisional arch the very same day — not a gap, not a denture, a real, fixed smile. There is no waiting period without teeth.

◆ NO BONE GRAFT REQUIRED

The angled placement of posterior implants uses areas of naturally denser bone, making All-on-4 suitable for many patients who have previously been told they are not implant candidates due to bone loss.

◆ EXPERT SURGICAL TEAM

Our surgical team have placed over 6,000 implants. Every All-on-4 case is planned individually using 3D imaging, and performed with a calm, unhurried approach that consistently puts patients at ease — even those who have avoided dentistry for years.

◆ PREMIUM ZIRCONIA ARCHES

Your final arch is crafted from high-strength zirconia — the same material used in aerospace engineering. It is beautiful, naturally translucent, permanently stain-resistant, and designed to last decades.

◆ COMPREHENSIVE AFTERCARE

Your care does not end at placement. We provide lifetime maintenance support, with hygiene appointments specifically calibrated to your implant arch, so your investment is protected for the long term.

◆ TRANSPARENT, STAGED PRICING

Your full treatment cost is confirmed in writing before any commitment is made — no hidden fees, no surprises. Flexible finance options make this possible for more patients than many expect.

WHAT OUR PATIENTS SAY

"I have new implants and can't believe how much difference they make to my face... amazing! Just wish I had started this journey sooner."

MARY WILSON • PATIENT

"From the very first consultation, I knew I was in the right hands. I can eat, smile and laugh without a second thought."

JAMES T. • PATIENT

"The level of care throughout was exceptional. My confidence has been completely transformed. I cannot recommend Natural Smiles highly enough."

HELEN R. • PATIENT

YOUR APPOINTMENT JOURNEY

STEP BY STEP, AT YOUR PACE

NO.	APPOINTMENT	WHAT TO EXPECT	DURATION
1	INITIAL CONSULTATION <i>Comprehensive assessment & CBCT scan</i>	A thorough surgical assessment with 3D CBCT scanning and clinical photography. We assess your bone volume, confirm your suitability, and begin designing your personalised surgical plan. You leave with a clear picture of what is possible.	60-90 MIN
2	TREATMENT PLANNING REVIEW <i>Plan presentation, digital smile design & consent</i>	We walk you through your personalised surgical plan and show you a digital preview of your proposed arch. Every question is answered fully. No commitment is made until you are entirely ready. Finance arranged at this stage if required.	30-45 MIN
3	ALL-ON-4 SURGERY DAY <i>Implant placement & provisional arch</i>	Remaining teeth removed, all four implants placed, and your provisional fixed arch secured — all in a single appointment, usually under conscious sedation. You arrive with a failing smile and leave with a fixed one.	3-5 HRS
4	POST-SURGICAL REVIEW <i>Healing assessment at 1 week</i>	A brief comfort review to confirm healing is progressing well and your provisional arch feels right. Sutures removed if needed. This appointment is included as part of your care.	20-30 MIN
5	PROGRESS REVIEW <i>Integration check at 3 months</i>	We assess how well your implants have integrated using clinical examination and targeted imaging. Once healing is confirmed — as it is in the vast majority of cases — planning for your final arch begins.	30-45 MIN
6	FINAL ARCH IMPRESSIONS <i>Precision planning for your permanent arch</i>	Precision digital scans and bite records taken. Your final zirconia arch is then designed in close collaboration with our master ceramist, matching your natural tooth colour, shape, and translucency.	60-90 MIN
7	FINAL ARCH PLACEMENT <i>Your permanent smile is complete</i>	Your bespoke zirconia arch is fitted, refined to perfection, and permanently secured. This is the appointment our patients remember most — the moment they see their final smile for the first time.	60-90 MIN

APPROXIMATE TREATMENT FEES

All-on-4 full arch (one jaw)	£12,000 – £18,000
Upper & lower arches (full mouth)	£22,000 – £34,000
Sedation (if chosen)	£400 – £700
Provisional arch — same day	Included
Long-term maintenance plan	Included

FLEXIBLE FINANCE OPTIONS

PAY AS YOU GO	Per stage
PER STAGE	
Payment per treatment stage. No full commitment upfront.	
0% — 12 MONTHS	From £1,000
INTEREST-FREE	
Interest-free, subject to credit approval.	
LOW APR — 60 MONTHS	From £260
EXTENDED	
Extended terms. Representative APR 9.9%.	

*Finance subject to credit approval. 0% interest available on treatments over £1,000. Extended terms available at a representative APR of 9.9%. Many patients find monthly costs far lower than they expected.
