

TREATMENT AT NATURAL SMILES

# RESTORING YOUR SMILE

## THREE PATHWAYS

### YOUR THREE OPTIONS

*There is no single best way to replace a full jaw of teeth — there is the right way for you. We offer three trusted pathways, from removable to permanently fixed.*

#### FULL DENTURES

I.

REMOVABLE • NO SURGERY

A precision-crafted, removable complete denture — skilfully shaped and characterised to look as natural as possible. The most accessible solution, no surgery required, and ready faster than any alternative.

#### IMPLANT-SUPPORTED DENTURES

II.

REMOVABLE • SECURE

A precision denture anchored firmly by two to four implants — the stability of implants with the convenience of a removable prosthetic. It clicks securely into place, and lifts out for easy cleaning.

#### ALL-ON-4 FULL JAW

III.

FIXED • SAME-DAY SMILE

A full row of fixed teeth on four to six implants. Surgery and a provisional fixed jaw in a single day, with a final bespoke zirconia jaw to follow — permanent, beautiful, life-changing.

## THREE TREATMENTS. ONE TRUSTED TEAM.

*Our role is not to recommend one treatment for everyone — it is to deliver the right one for you.*

### I. FULL DENTURES

*Traditional, removable, no surgery required*

A precision-crafted removable prosthetic that replaces a complete jaw of teeth, individually shaped and characterised to look as natural as possible. The most accessible solution — lowest cost, fastest delivery, no surgery. An immediate denture can be fitted the same day teeth are removed.

|                  |                                            |
|------------------|--------------------------------------------|
| <b>BEST FOR</b>  | Lowest-cost full jaw · surgery not desired |
| <b>TIMEFRAME</b> | 4–6 weeks · immediate option same day      |
| <b>LIFESPAN</b>  | 5–8 years before re-line / re-make         |

### II. IMPLANT-SUPPORTED DENTURES

*Removable denture, anchored by implants*

Two to four implants are placed into the jawbone and fitted with precision locator attachments. Your bespoke denture then clicks firmly onto them — eliminating the movement and rubbing a conventional denture cannot avoid. Secure when worn, removable for easy cleaning.

|                  |                                    |
|------------------|------------------------------------|
| <b>BEST FOR</b>  | Denture wearers seeking stability  |
| <b>TIMEFRAME</b> | 4–5 months                         |
| <b>LIFESPAN</b>  | Implants 10+ yrs · denture 5–7 yrs |

### III. ALL-ON-4 FULL JAW

*A fixed full jaw on four to six implants*

Four to six implants placed at angles that maximise contact with your existing bone — eliminating grafting in most cases. A provisional fixed jaw is secured the same day. Months later, your final bespoke zirconia jaw is placed: permanent, beautiful, life-changing.

|                  |                                        |
|------------------|----------------------------------------|
| <b>BEST FOR</b>  | A permanently fixed full jaw           |
| <b>TIMEFRAME</b> | Surgery day fixed · final 3–6 months   |
| <b>LIFESPAN</b>  | 20+ years · lifetime jaw in many cases |

## YOUR RESTORATION JOURNEY

### 01 CONSULTATION & 3D ASSESSMENT

A relaxed conversation about what matters most to you, with clinical photography and — where implants are considered — a CBCT 3D scan to map your bone in three dimensions.

### 02 TREATMENT PLAN & COSTINGS

Your bespoke plan presented in full — every stage, every appointment, every cost confirmed in writing. We answer every question. Nothing proceeds until you are completely ready.

### 03 TREATMENT & HEALING

Your denture is crafted, or implants are placed under local anaesthetic and allowed to integrate. A provisional or immediate denture means you are never left without teeth.

### 04 YOUR RESTORED SMILE

Your final denture or fixed jaw is fitted, refined to perfection — delivered with the calm, unhurried care our patients consistently describe as the reason they recommend us.

## CHOOSING YOUR TREATMENT

# COMPARING YOUR OPTIONS

|                       | FULL DENTURES      | IMPLANT-RETAINED DENTURES   | ALL-ON-4 FULL JAW          |
|-----------------------|--------------------|-----------------------------|----------------------------|
| FIXED OR REMOVABLE    | REMOVABLE          | REMOVABLE                   | FIXED                      |
| SURGERY REQUIRED      | No                 | Yes · 2–4 implants          | Yes · 4–6 implants         |
| TREATMENT TIME        | 4–6 weeks          | 4–5 months                  | Same day fixed             |
| STABILITY             | Rests on the gums  | Clicks firmly onto implants | Permanently fixed in place |
| CHEWING EFFICIENCY    | ~25–30% of natural | ~90% of natural             | Natural (100%)             |
| LIFESPAN              | 5–8 years          | 10+ years                   | 20+ years                  |
| APPROX. FEE (PER JAW) | £1,199 – £2,995    | £5,995 – £11,995            | £13,999 – £17,950          |

## WHICH IS RIGHT FOR YOU?

If — **you prefer not to have surgery**, or you need the most cost-effective and timely way to replace a full jaw of teeth.

FULL DENTURES

If — **you wear a denture already** and want it to stop moving — secure when worn, without the cost of a fully fixed jaw.

IMPLANT-SUPPORTED DENTURES

If — **you want fixed teeth that never come out** — securely placed, the closest possible thing to your own natural teeth.

ALL-ON-4 FULL JAW

## WHAT OUR PATIENTS SAY

★★★★★

*“Dr Bhav corrected some dental work that had left me feeling distraught. He gave me my confidence back. All the staff are friendly & put you at ease straight away. I always recommend Natural Smiles.”*

CAROLINE WRIGHT · PATIENT

★★★★★

*“From the first visit, Bhav made me feel at ease and took the time to explain everything clearly. The whole process was pain-free and handled with such professionalism. I can finally smile again after years of pain and rotten looking teeth!!”*

AMANDA SINCLAIR · PATIENT

★★★★★

*“Extremely happy with the care and treatment of my implants. It has given me confidence and feels natural. Would highly recommend Natural Smiles for any dental works and can not praise the staff enough and a huge thank you.”*

MARGARET CHAPMAN · PATIENT

## INVESTMENT & PAYMENT OPTIONS

# CLEAR PRICING, FLEXIBLE TERMS

All fees are presented clearly and confirmed in writing before any treatment begins. The figures below are approximate ranges; your individual quotation is provided after consultation. Each leaflet for each treatment carries the full breakdown.

| TREATMENT                                                                                                   | RANGE             | PER MONTH FROM* |
|-------------------------------------------------------------------------------------------------------------|-------------------|-----------------|
| <b>I. FULL DENTURES</b><br><i>Complete upper or lower · immediate (same-day) from £800</i>                  | £1,199 – £2,995   | £25             |
| <b>II. IMPLANT-SUPPORTED DENTURES</b><br><i>Two to four implants · locators · bespoke denture · per jaw</i> | £5,995 – £11,995  | £127            |
